

-
- 160,000 sheets of paper saved since the start of the MPS project
 - That's approximately 20 trees, 2kg of CO2, or 130,000 standard light bulb hours
 - The MPS project is 40% complete

-
- 'Digital transformation'
 - One example, many opportunities
 - The ELL AIP Application digitized the following paper workflows:
 - Annual Instructional Plan
 - Adaptations
 - Evidence of services
 - Consultation log
 - Approx. 20,000 sheets of paper saved per year

-
- We automate the shutdown of approx. 7,000 workstations between 9pm and 6am
 - Laptops, iPads and Chromebooks have automatic low power modes when not in use.

-
- Benchmark the data
 - Prioritize digital transformation
 - Support the Facilities department energy management initiatives
 - Electronics recycle and re-use
 - Sustainable IT procurement
 - Build sustainability into project planning
