Ad Hoc Climate Action Committee

Purpose:

The Ad Hoc Climate Action Committee will prepare a Climate Action Plan which includes measurable targets and strategies to reduce Green House Gasses (GHGs) by 2030 commensurate with the Intergovernmental Panel on Climate Change's call to limit warming to 1.5 degrees Celsius. The CleanBC Roadmap to 2030 included in the plan will be funding options to support targets and strategies such as available rebates and government funding to meet sectoral targets set by the provincial government.
